Library Guide
Surveillance

Resource List | 2016

Surveillance seems to be intrinsically linked to our modern life but in fact this is a theme that photographers have explored throughout the history of photography. In this guide we provide additional information about the 20th and 21st century photographers featured in the exhibition as well as a general overview of some of the questions and theory that are being raised about “secretive looking” and its impact on photography and on modern life.

If you have questions, please contact the reference staff at the Spencer Art Reference Library (telephone: 816.751.1216). Library hours and services are listed on the Museum’s website at www.nelson-atkins.org
