INSTRUCTIONS FOR PLAY

The goal of this game is to be the first to reach the final 100 space on the playing board. All players begin with their game piece on space 1. To advance, each player rolls a die from another game or a digital one (link below).

When a piece lands at the bottom of a ladder, move it to the top of the ladder. When a piece lands at the top of a snake, slide it down to the bottom of the snake. The winner must land exactly on space 100. Good luck!

SNAKES AND LADDERS HISTORY

The game of Snakes and Ladders originated as early as 2,000 years ago in India. It was initially played to teach morality to children. This is a game of chance! It helps us understand the ups and downs of life.
